

ADI TAUQIR

Atlanta, GA | 770-524-3864 | aditauqir@gmail.com | [linkedin.com/in/aditauqir](https://www.linkedin.com/in/aditauqir) | aditauqir.vercel.app | U.S. Permanent Resident

TECHNICAL SKILLS

Languages: Python, C/C++, Java, TypeScript, JavaScript, SQL, HTML/CSS, LaTeX
AI/LLM Stack: OpenAI & Claude APIs, Ollama, Mistral, Gemini, RAG, Prompt Engineering, Agentic AI, AI Agents, MCP
Frameworks & Libraries: Next.js, React, Node.js, FastAPI, LangChain, LangGraph, TensorFlow, PyTorch
Developer Tools: Claude Code, OpenAI Codex, Cursor, Windsurf, Git, GitHub Actions, Docker, Linux
Databases & Infrastructure: Supabase, MySQL, PostgreSQL, Redis, FAISS, REST APIs, WebSockets
Relevant Coursework: Data Structures & Algorithms, Computer Organization, Theoretical Foundations of CS, Cloud Computing, Data Mining, Artificial Intelligence, Machine Learning, Calculus I & II
Languages Spoken: English, Hindi/Urdu, German

TECHNICAL PROJECTS

- Zirn: AI Knowledge Operating System** | *SwiftUI, Groq, OpenRouter, Mistral AI, Ollama, Markdown, MCP, SQLite* May 2026 – Present
- Architected a local-first AI knowledge operating system transforming heterogeneous data sources (PDFs, web content, Markdown notes, copied research) into structured Markdown knowledge artifacts using **LLM-driven compilation and retrieval pipelines**.
 - Engineered a multi-provider AI orchestration and context management layer integrating **Groq, OpenRouter, Mistral AI**, and local **Ollama** inference workflows, reducing response latency by up to **70%** while supporting scalable long-context retrieval and semantic generation tasks.
 - Designed a custom **.brain vault manifest architecture** managing graph-linked note relationships, contextual memory state, source registries, persistent metadata, and future-ready vector indexing infrastructure across **1000+ projected knowledge nodes**.
 - Built an AI-powered ingestion and retrieval pipeline capable of processing and compiling **100K+ word** research documents into semantically organized Markdown notes with contextual linking, source tracking, and adaptive summarization workflows.
- AWRY: Real-Time Recession Forecasting System** | *Python, Scikit-learn, FRED API, Pandas, Streamlit* Jan. 2026 – Apr. 2026
- Built an end-to-end AI/ML forecasting system predicting recession probability using 13 macroeconomic indicators, achieving **0.994 AUROC** and **0.86 F1-score**.
 - Engineered machine learning features including lagging, differencing, and spread construction with future-shifted targets to enable predictive **3-month forward forecasts** without data leakage.
 - Developed ensemble machine learning models (**Logistic Regression + Random Forest**) with log-odds weighting, improving probability calibration to a **0.024 Brier Score** while enabling early recession signal detection up to **6 months in advance**.
 - Built real-time inference, backtesting, and interactive Streamlit visualization pipelines analyzing macroeconomic performance across **2001, 2008, and 2020** economic regimes.
- ResumeFX: AI Resume Optimizer** | *Next.js, TypeScript, Supabase, Claude, OpenAI, Gemini, Ollama* Mar. 2026 – Present
- Developed a full-stack AI resume optimization platform generating **100+ tailored LaTeX resumes** using multi-provider LLM workflows and automated PDF generation pipelines.
 - Engineered modular inference and prompt orchestration pipelines integrating **Claude, OpenAI, Gemini, and Ollama**, reducing end-to-end processing latency by **30%**.
 - Built scalable REST APIs and Supabase-backed credit/rate-limiting systems supporting concurrent uploads, controlled scaling, and multi-user processing reliability.

ACHIEVEMENTS & CERTIFICATIONS

- GSU Technology Immersion Challenge (CTF Sponsored by Truist)** Atlanta, GA
Top 10 Team Finish Nov. 2024
- Solved cybersecurity challenges involving Linux exploitation and packet analysis, achieving **70% solve rate**.
- CodePath TIPS 102** Remote
Certificate of Completion Sep. 2025 – Dec. 2025
- Strengthened data structures and algorithmic problem-solving for technical interviews.
- GSHacks Hackathon** Atlanta, GA
Second Place Apr. 2025

PROFESSIONAL EXPERIENCE

- Regal Cinemas** Atlanta, GA
Floor Staff Aug. 2025 – Present
- Processed **30+ customer transactions per shift** while supporting fast-paced theater operations, team coordination, and high-volume guest service with zero cash discrepancies.

EDUCATION

- Georgia State University** Atlanta, GA
B.S. in Computer Science GPA: 4.28 Expected Aug. 2027
- President's List (*Fall 2024 – Spring 2026*)
